Re : Ocean Adventure Endorsement Request

Dear Ms. Leilani,

Greetings from Ocean Adventure in Subic Bay, Philippines!

This year marks our 15th Year of Operations, Ocean Adventure passion is not just to entertain but to educate everyone, working together to save animals and environment at the same time. Our main goal is to enlighten kids of all ages on how they too can help and protect our environment.

With the continuous park development is the birth of "Ocean heART Gallery". It is the newest attraction inside Ocean Adventure which was opened to the public last 18th March 2016. The 65 square meter area located at the Sea Lion Point is now the "Selfie Capital" of our theme park where we feature three dimensional (3D) paintings. Each section sports a different theme, with some including marine creature endemic to the Philippines, such as the whale shark or 'butanding'. Meanwhile, the sea turtle or 'pawikan' and the octopus were modified in order to allow others to add their own touch of creative genius.

The additional artworks are situated inside the Gift shop's ceiling and Entrance Hallway. The gallery has already drawn the attention of many schools and art enthusiasts hoping to be entertained and informed about the specific style of painting. Moreover, it hopes to expand on its collection in the future to include more types of perspective art. Ocean Adventure has definitely added a fun and colorful dimension to otherwise drab park areas before.

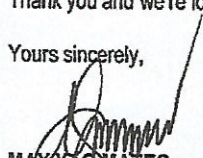

With this note, we would like to seek for your support and help us to EDUCATE AND EMPOWER our students and teachers to take a pro-active stand in the protection and conservation of our environment through our one of a kind programs and products that combines Education with Entertainment.

We are seeking your support through an official endorsement from your good office for Ocean Adventure to be the venue for educational field trips of both public and private schools.

With your continuous support to our endeavor in educating, enlightening and empowering our youth, that we could make a difference in preserving our environment.

Thank you and we're looking forward for your positive response.

Yours sincerely,

MAY YAO MATEO
