DIVISION ADVISORY

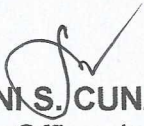

No. 114, s. 2017

To: Heads of Public Elementary and Secondary Schools
From: OIC-Schools Division Superintendent
Subject: Bayanihan Hygienic Campaign
Date: June 20, 2017

This is to inform all concerned that the Mothers and Daughters on Nurture Association (MAMADONA Foundation, Inc.) will conduct Bayanihan Hygienic Campaign through lectures and symposia.

School Heads can accommodate the group provided that the Department's policy of "No disruption of classes" is strictly adhered to.

Attached is a letter of Ms. Cecille Joy D. Catindig, Executive Director, for reference.

LEILANI S. CUNANAN, CESO VI
Officer-in-Charge
Office of the Schools Division Superintendent

MOTHERS AND DAUGHTERS ON NURTURE ASSOCIATION
(MAMADONA FOUNDATION, INC)

June 13, 2017

DR. MALCOLM S. GARMA
Regional Director
DepEd Region III
Maimpis, San Fernando City

Dear Dr. Garma:

In support to the DepEd Order No. 43 s. 2011 and Memorandum No. 433 s. 2010, the National Health Maintenance Drive with the theme "STRENGTHENING THE SCHOOL HEALTH PROGRAM" which encourages private sectors group to participate and intensify their involvement in health care services to improve the health status of the school populace, our Foundation wishes to assist and participate in the program by implementing in schools in the region our **BAYANIHAN HYGIENIC CAMPAIGN** through lectures and symposia.

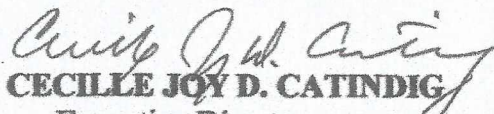

The project aims to create awareness among our school students on the importance of hygiene of which when properly observed by everyone concerned, without consideration of sex or gender will help them do away with the embarrassment of having body odor in any form, as well as minimize their exposure to some form of skin diseases and the infection it will cause. Being able to overcome all these problems will help them establish for themselves a feeling of self-worth and confidence.

Part of the campaign stresses on the proper education on the prevention at the onset of any skin diseases, thus preventing students from being infected with diseases carried by contaminated floodwater. Students with some form of skin problems such as fungal infection like athlete's foot or alipunga, scabies, new and old wounds, prickly heat, boils and eczema, and the likes, can be given advice on how to treat them in their homes.

Paraphrasing a common dictum we say, "An Ounce of Prevention is Better Than a Pound of Cure". May we pray for a positive response.

Thank you and more power.

Respectfully yours,

CECILLE JOY D. CATINDIG
Executive Director
