Dr. Malcolm S. Garma
(OIC) Regional Director
Department of Education – Region 3
Maimpis, City of San Fernando, Pampanga

Dear Dr. Garma,

Greetings from the Science Clubbing Movement!

The Pambansang Kapisanan ng mga Kabataan Samahan ng Agham (Philippine Society of Youth Science Clubs), Inc. is a countrywide organization committed in upholding the significance of science clubbing and in promoting science, technology and environment as its main thrust. In a span of 46 years, the PSYSC has conducted positive, practical and realistic activities and programs for elementary and secondary students which enhance not just the academic perspective of each science clubber but their environmental and social aware-ness as well.

On December 18-21, 2017, we will be conducting the 2017 National Children's Science Interactive Workshop (NCSIW 2017) in Luzon with the theme "Chemical X: Decrypting the Secret Formula." This year's NCSIW will focus on understanding the fundamental concepts, current trends and breakthroughs in the field of Chemistry. NCSIW 2017 also aims to promote research and development among elementary students by exposing them to chemistry being a field of study and a possible career path. Other activities which will be highlighted are series of lectures and workshops, educational field trip, and other fun-filled learning activities.

Chemistry is a vital field of science to engage the children as it has extensive applications covering the areas of industry, medicine, agriculture, consumer products, food security and other advanced fields of science and technology. Introducing them to chemistry will expose them to the wonders and boundless potential of this fundamental field of science and hope-fully encourage them to take an active role in its development. Hence, we would like to seek your provision by helping us in disseminating this information through issuing advisories and endorsement to schools in your region. Attached here is the sample format of the memorandum which you can follow.

The organization is very eager on imparting this knowledge in the youth. With your aid and expertise, we may be able to train young minds into an environmentally aware and concerned citizen of this country continually supporting the science clubbing movement.

We are hoping for your positive response. Should you have questions, please do not hesitate to contact us through the numbers indicated above and look for Ms. Rosalinda Aber (Administrative Officer) or email us at csiw@psyssc.org. Please allow us to follow up on this matter.

Thank you very much and more power!

In service of the Filipino Youth,

ANDRE A. BORRROMEO
Director
NCSIW 2017
