Dear Honorable Schools Division Superintendent:

Greetings from CYWTAC Legazpi!

As a society, we cannot afford to postpone investing in children until they become adults. The best evidence supports the policy prescription: invest in the very young and improve basic learning and support in their development. This includes integrating play in childhood learning and supporting them if learning difficulties are being experienced. A great deal of research has concluded that play-based learning is genuinely and positively impactful on student learning and development. Beyond stimulating young minds to be receptive to learning, play is a necessary component of brain development for children. Also, in their journey towards educational growth and development, some children experience learning difficulties which hinders them to move forward and learn effectively. The role of the teachers and helping professionals are crucial to these children's academic growth and development.

With these in mind, the children and Youth Wellness Technical & Advocacy center (CYWTAC), Inc., a DSWD licensed and accredited community-based non-government organization in Bicol Region will hold a specialized two-day seminar-workshop on: **"PLAY-BASED TEACHING AND LEARNING AND MANAGING CHILDREN WITH LEARNING DIFFICULTIES"** on November 14-15, 2019 at **Hotel Costa Brava, Tacloban City**.
