2. The LRMDS Framework serves as the policy instrument for the implementation and ongoing operation of LRMDS at all levels of DepEd. It is supported by guidelines and process documents for all sub-systems, a quality assurance framework, standards and specifications (e.g., educational, technical, intellectual property rights, accessibility, metadata), and training programs.
3. The LRMDS is a web-based catalogue and on-line repository of learning, teaching, and professional-development resources. It has four (4) integrated sub-systems, namely:

It includes the following:
 - a. information on quantity, quality, and location of textbooks and supplementary materials, and other teaching-learning resources;
 - b. access to learning, teaching, and professional development resources in digital format; and
