Dr. Eclar:

Warm Mabuhay greetings!

The Fourth Year BS in Hospitality Management and BS in Tourism Management students of Systems Plus College of Foundation will be organizing their Event as part of their curriculum under Introduction to MICE course on April 19, 2024.

With the theme "*Flourish: A Showcase of Talent and Innovation*", the aforementioned activity serves as the culminating activity of the Introduction to MICE class. The event will be an *Inter-Senior High School Skills Competition*. There will be *No Registration Fee* for this event.

As a general rationale, this activity longs to promote MICE as a recreation sector and uphold the indispensable importance of practitioners in the continuous development of our community. More so, through this:

1. Students will exhibit learned concepts, principles, and theories in events and convention management particularly in the field of logistics/project management. Through this, they will demonstrate competence in practical application of skills and principles in management.
2. Participants will be able to ignite a sense of awareness and provide them with a holistic experience of a student competition and exhibition of their craft and to enhance friendly competition and camaraderie between Senior High School of different High Schools, Colleges, and Universities in Pampanga.
3. To endorse their Alma Mater, Systems Plus College Foundation as a front liner in the upbringing of successful and competent students by taking part in actual events organization.
