**Subject: Request for Permission to Disseminate Information about Lesson Planner PH's new tools for Region III Teachers (Elementary to Senior High School)**

Dear Dr. Eclar,

**44,931 Public Schools in 17 DepEd Regions, 836,193 Public School Teachers, and 21 million Students in Public Schools.** These numbers represent a vast network of dedicated educators and learners across the Philippines. We, at [www.lessonplanner.ph](http://www.lessonplanner.ph), a Philippine-based EdTech startup, want to start helping Public School teachers in Region 3 with our latest tool designed to reduce the time it takes to create lesson plans and other teaching materials.

[www.lessonplanner.ph](http://www.lessonplanner.ph) empowers teachers with a suite of features specifically designed to streamline their workload and enhance student learning. Here's what Region 3 Public School Teachers (Elementary to Senior High School) can benefit from:

1. **FREE 10 Monthly credits:** Credits can be used to prepare lesson plans, lesson objectives, short quiz, activity, catch-up Fridays, and many more. This will significantly help teachers so that they can focus on what matters most; teaching their students.
2. **Lesson Plans with Links and References:** Save valuable time by getting links to articles and learning materials directly within your lesson plans, providing students with richer learning opportunities.
3. **Short Quizzes, Activities, and Summative Tests:** Create engaging assessments for any topic for short quizzes, interactive activities, and comprehensive summative tests all within the platform.
4. **Catch-Up Fridays:** Breathe new life into Fridays with the "Catch-Up Fridays" feature. Plan enriching afternoon activities to solidify student understanding and maximize learning time.

Teachers make up to 10 lesson plans a week. Each lesson plan takes up to 3 hours to prepare.

PLANNER PH

### The Problem

We reached out to teachers and we have learned that their **common pain point** is the need to **constantly prepare lesson plans**.

They have to do this for different subjects and grade levels every week, for the rest of the school year.

Ultimately, the high effort required in preparing lesson plans is **limiting our teachers' ability to do more impactful work**.
